IP Access Control Systems

Innovative Technologies, Engineered to Perfection

IP Access Control
From simpler standalone to enterprise-level systems, Suprema's IP-based distributed topology reduces your installation & maintenance cost.

Intelligence at Doors
Every Suprema access control products equipped with powerful 400MHz CPU. Secure control at doors, no control panels needed.

Time Attendance
Integrated biometric time attendance control with comprehensive, fully customizable software.

Versatile Solution
With various interfaces incl. TCP/IP, PoE, RS485 & Wiegand, our terminals provide controller functions or a reader to 3rd party control panels. EM/Mifare /HID Prox. compatible.
